

**SIEMENS**

Ingenuity for life

**Siemens** electrical switches and sockets A collection of diverse designs that are perfectly combined by selecting and using high-quality materials that are environmentally friendly, therefore safe, beautiful and meet all needs in every lifestyle.

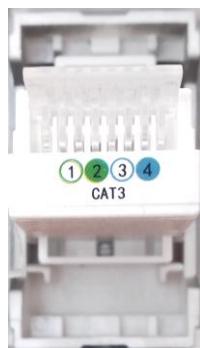

**DELTA Relfa** creates a design dimension that supports both vertical and horizontal use in a variety of forms, such as small and large button switches, single and double sockets, as well as models with safety shutters, dimmer switches, sockets, televisions, telephones, computers with covers, rectangular and square shapes, etc. The materials are durable, easy to install, reliable, safe, tested and received the Industrial Product Standard (TIS). DELTA relfa comes with a choice of colors to match the desired wall surface with 3 colors: white, silver and dark gray.

Robustness, Everlasting Design

# TECHNICAL DATA SHEET

**5SUB2233-1PC11**

**Description:** 5SUB2215-1PC11 1M

RJ11 Socket

**Function:** Single-gang (1M) RJ11 telephone socket, designed to fit the Delta Relfa 120 modular frames

**Typical Applications:** Home/office telephone line connections requiring discrete RJ11 sockets

**Socket Type :** 1M RJ11 telephone module

**Material:** Flame-retardant polycarbonate (UL94-V0)

**Certifications:** EMC-tested

**Color:** White

**Device Width:** 24 mm

**Device Length:** 36 mm

**Device Depth:** 38 mm

**Mounting Method:** Flush Mounted

**Surface Finishing:** Gloss Finish

**Certification:** IEC 60603-7
